Sir:

In response to the restriction/election requirement set forth in the Office Action mailed August 30, 2006, Applicant hereby provisionally elects Group II, claims 52-74, directed to a method for adjusting a price of a used vehicle; claims 75-92, directed to a system for adjusting a price of a used vehicle; and claims 113-118, directed to a computer readable medium for adjusting a price of a used vehicle, for examination on the merits.

However, as noted by the Examiner, the different groups identified by the Examiner are all classified in the same Class 705, and Subclass 37. In addition, various limitations of the claims between the different groups overlap. For example, claim 58 of the provisionally elected Group II that is dependent on independent claim 52 specifically recites a method including "the step of determining which sale transactions of said plurality of transaction records occurred with buyer's knowledge of said vehicle history attributes, and which sale transactions of said plurality of transaction records occurred without buyer's knowledge of said vehicle history attributes." Similar limitations are recited in independent claim 20 of Group I, and independent claim 97 of Group IV. In addition, similar limitations are recited in claim 95 which is ultimately dependent on independent claim 93 of Group III. Analogous parallels are also present with respect to the system and computer readable medium claims as filed.

Thus, in view of the above, a thorough search for the subject matter of the provisionally elected Group II in the same class and subclass would also include the subject matter of Groups I, III, and IV as well. Therefore, the search and examination of the entire application can be made in the same class and subclass without serious burden to the Examiner. (See MPEP 803).

In view of the above, the Applicants respectfully request that the Restriction Requirement be reconsidered and withdrawn, and that all claims of the entire application be examined on the merits.

Respectfully submitted,
